

Can Akyıl, Ph.D.

Global Business Director

Mac Dermid Enthone, Istanbul

V1

Dr. Can Akyıl is a globally recognized expert in the surface treatment of aluminum, with over 15 years of leadership and technical experience at Mac Dermid Enthone. Currently serving as the Global Business Director, he oversees the Light Metals Division, driving innovation and business growth in the surface treatment industry.

Dr. Akyıl's career spans R&D, production, sales, and business development, with a proven track record of managing and expanding the aluminum business in Turkey and beyond. Prior to Mac Dermid Enthone, he led the Turkish R&D department at Welding Alloys, applying his expertise to advanced materials and electrochemical technologies.

Academically, Dr. Akyıl holds a PhD from Istanbul Technical University, where he specialized in the electrochemical behavior of tin alloys and the corrosion resistance of aluminum alloys. This unique combination of technical expertise and strategic leadership has made him a key figure in the global light metals industry.
