Prof. Yan Yu

Department of Materials Science and Engineering, University of Science and Technology of China, Hefei, China

Biography: Yan Yu is a distinguished professor of material science at University of Science and Technology of China. Her research focus on energy storage materials and devices. She has published over 400 papers in top-tier journals, like *Science*, *Nat. Energy* with H index of 120. She was selected as Highly Cited Researcher in Materials Science field since 2017. She also received several awards, such as Sofja Kovalevskaja award from the Alexander von Humboldt Foundation, NSFC Outstanding Youth Fund, Wiley “Outstanding Young Researcher Award” and “Small Young Innovators”, Materials Today “Rising Star Award”, Nano Research “Young Innovators Award in Nano energy”, Fellow of The Royal Society of Chemistry, etc.
