

Nihan Cin

Manager of Intellectual Property and Incentives

Temsa Skoda Sabancı Transportation Vehicles Inc.

Nihan Cin graduated from the Department of Chemistry at İzmir Institute of Technology in 2012 and completed her master's degree in Materials Science and Engineering at Sabancı University. She began her professional career in 2014 as an R&D Engineer at Kordsa, where she worked on material development and technical analysis processes.

In 2015, she joined Temsa and continued her work in R&D, actively contributing to technical documentation, tender processes, material approvals, and project management.

Since 2022, she has been serving as the Manager of Intellectual Property and Incentives at Temsa, focusing on sustainability, innovative energy solutions, and the development and management of R&D projects supported by national and international funding programs.
